ENERGY STAR[®] HOMES

Continental Custom Builders is proud to build ENERGY STAR-certified new homes.

SAVE MONEY WITH AN ENERGY EFFICIENT HOME

Each ENERGY STAR home is performance tested and comes with a third-party certification, so you can rest assured that your home meets strict efficiency guidelines.

Your home will be built using proven energy efficient construction techniques and high efficiency products—such as the heating and cooling systems, windows and doors, lighting, and appliances—making your home among the most energy efficient homes available.
