## **LEED-CERTIFIED HOMES**

---

LEADERSHIP IN ENERGY AND ENVIRONMENTAL DESIGN (LEED) for Homes Rating System™ provides guidelines for planning and building earth-friendly green homes. As one of the few LEED-accredited builders in Idaho, Continental Custom Builders is passionate about creating beautiful custom homes that are both environmentally conscious and affordable.

### **CONTRIBUTE TO A BETTER TOMORROW**

---

We design and construct our LEED-certified homes in an environmentally responsible manner by employing green building practices and minimize resource waste and carbon emissions by using recycled and local building materials.

### **MAKE A GREAT INVESTMENT**

---

With an affordable purchase price and low cost of maintenance, a LEED-certified home from Continental Custom Builders is a smart choice.

### **SAVE MONEY WITH AN ENERGY EFFICIENT HOME**

---

From the design of the house itself to its placement on the lot, we meticulously plan and construct each home to ensure effective resource use. You'll see decreased energy consumption and a lower power bill with ENERGY STAR® appliances, lighting, and windows. Efficient plumbing fixtures inside and carefully crafted landscaping outside aid in optimizing water use.

### **MAKE YOUR FAMILY'S HEALTH A PRIORITY**

---

Enjoy cleaner indoor air and a better living environment with a built-in air recycling and filtering system, central vacuum, formaldehyde-free insulation, and non-toxic paint.
